GOVERNMENTS, STOCKS AND RONDS.
NEW YORK, Feb. 15.—Government bonds dull and steady.

Rallroad bonds active, with business well distributed.

There was little of interest in stocks Eric opened with only moderate change. The majority of the list was a shade bigber, and during the first hour the market was irregular and somewhat feverials. This was followed by a small decline and after midday a rally, during which earlier losses were recovered, and then a weakness set in, which continued to the close. The changes, with few exceptions, were between a range of 1 per cent, and the closing quotations show losses in unjority of cases of only small fractions. Pacific Mall, however, was strong all day, closing with a gain of 1. There was a spurt of activity in Columbus, Hocking Valley & Toledo, which rose from 334 to 374 and closed at 364. The market closed at or near the lowest figures of the day and irregular, being weak for some stocks and firm for others.

Just now a few of our business men and property owners are iosking in the direction of Fort Worth, the town that builds roads while other towns are talking about it. A line from Fort Worth to this nince would cross the northern part of Dal as, pass through Bockwall and 1000 of Hunt county, and apon reaching this place would find a roadbed already graded from here to Mount Pleasant, where it would form a junction with the Texas & St. Louis. CAMARGO, MEX., Feb. 15.—Last night a man wearing a mask and armed with a knife made a desperate attempt to assassinate Donaciano Garcia, a merchant of this city, but only succeeded in slightly wounding him. Garcia was unarmed and escaped with difficulty by running into his store. Garcia's gin was burned by an incendiary Friday night and it is believed that his assailant and the incendiary is the same party, who tried to murder Garcia and thus put a stop to the investigation of the fire which the latter was vigorously pushing.

She had not a dol ar of insurance, and these friends of her's immediately set to work trying as well as they could to make all reparation possible for her loss. Mrs. Stone formerly lived at Hillsboro, which perhaps accounts in a measure for the interest displayed in her behalf. The last accounts show that 8400 has been raised, besides a trunkful of clothes and a box of table china an i crockery, the latter presented by hardware merchants, Thompson & Blakey.

Hillsboro is still improving rapidly, as will be seen from the fact that there are two buildings of importance being constructed at the present time. One of them is the commodious business house, them is the commodious business rocks, which is now nearing completion, belonging to Hawkins, Welburn & Co., one of the leading hardware firms of this town. The other is the Christian church, the foundation of which building has been laid on the lot adjoining Dr. Kennedy's residence on the south.

Yesterday being such a pleasant day, our streets were thronged in the afternoon with buggies and carriages filled with people of all ages, who were all out enjoying the sunshine.
